I am a software developer with a passion for programming. I have solid knowledge in Java and have since familiarised myself with other modern web technologies such as JavaScript, NodeJS and React to broaden my skill sets. Eager to apply my skills and knowledge to solve real-world problems and make an impact in the field of software development.

KEY SKILLS

- Proven ability to quickly learn new programming languages and technologies through the implementation of personal projects.
- Knowledgeable in object-oriented programming (Java, C#) and web development technologies.
- Ability to work effectively in multidisciplinary teams or work independently, high self-motivation and willingness to support others.
- Ability to multi-task and undertake extra responsibilities.
- Ability to problem-solve through logical thinking.
- Experience in Agile methodology.

TECHNICAL SKILLS

- **Programming languages:** Java, C#, NodeJS, Python, HTML, CSS and TypeScript
- **Framework & Libraries:** ASP.NET, Express, Spring, Restful APIs, Json, Bootstrap, React and Material UI
- **Database:** MySQL, MongoDB & Mongoose, AWS EC2 and AWS Lambda
- **Tools:** Postman, Github, Jira, Workbench and Agile methodologies.

WORK EXPERIENCE

Software Developer at Stomble

Jan 2023 – present

- Assisted with the ideation of new concepts, and the design, coding and testing of new software modules, web applications, custom scripts and algorithms, custom APIs and in some instances full-feature platforms to meet client needs.
- Maintained code integrity with effective Git operations, collaborated with team lead in code reviewing to inspect codes for accuracy, validity and correctness, identify system and application limitations and plan for potential enhancements.
- Experience working in a team environment and collaborating with cross-functional teams to deliver projects on time.

Achievements:

- Gained understanding of the Agile methodologies and hand-on experience in real project.
- Received advanced training in AWS services.

Recruitment Consultant at Workink VietNam

2016 – 2018

- Skilled in identifying client needs, sourcing and interviewing candidates, and negotiating offers.
- Built and maintained relationships with clients and candidates, resulting in high satisfaction and repeat business.

Achievements:

- Was promoted to Team leader after 1,5 years from a graduate staff.
- Achieved Employee of Year Award 2017.

PERSONAL PROJECT

Project: Contact List Management ([Link](#))

- Tech stack: **NodeJS, Express, MongoDB, React.js, AWS-EC2**
- Built front-end and back-end workflow for a contact management application.

- Implemented search engine, view, create, update and delete REST APIs for End users.
- Designed and implemented a MongoDB database to store user and contact information.
- Deployed the application to cloud platform.

Achievements:

- Received advanced training in Git, MERN stack, AWS development.
- Demonstrated learning capability as a self-starter by taking initiatives to learn new concepts promptly.

Project: Shopping Cart App ([Link](#))

- Tech stack: **Spring Boot, JPA, Hibernate, MySql, Thymeleaf, Spring Security**
- Designed and implemented the front-end, back-end logic to retrieve and store data from a MySQL database.
- Utilized **Spring Security OAuth2** to implement login feature via Google and Facebook.

Achievements:

- Increased ability to work with databases, implement security features, and integrate the front-end and back-end of the application.
- Demonstrated learning capabilities by continuously researching in-depth knowledge to support work.

Project: Design Database

- Used **MySQL** and **Workbench** to design database system for Airport Maintenance Service.
- Determined database requirements from user needs.
- Built an organized structure to store product information, customer information, and order information.
- Utilized foreign keys and indexing to ensure data integrity and improve query performance.

Achievements:

- Gained understanding of conceptual model, logical model, physical design, security design and backup & recovery.

EDUCATION

TafeSA

Diploma of Information Technology (Advanced Programming)	2022
Certificate IV in Information Technology (Programming	2021

University of Labour and Social Affairs Vietnam

2010 - 2014

Bachelor of Human Resource Management

CERTIFICATES

Linkedin Learning Scrum Advanced Certificate	2023
TafeSA Programming Bootcamp Certificate	2022
